Legal Review Draft

Version	1.0 (Final Review Draft)
Date	August 24, 2026
Governing Law	Alberta PIPA, PIPEDA & Canadian Privacy Law
Sole Proprietor	Landon Syroid d/b/a Kindred Asterling AI Coaching
Status	Subject to Final Legal Counsel Approval

DRAFT - FOR FINAL LEGAL REVIEW & EXECUTION - NOT FOR DISTRIBUTION

1. Organization & Privacy Officer

Kindred Asterling AI Coaching ("Kindred", "we", "us", or "our") is an Alberta sole proprietorship owned and operated by Landon Syroid, located in Edmonton, Alberta, Canada.

We are dedicated to safeguarding your personal privacy and adhering strictly to the Alberta Personal Information Protection Act (PIPA, SA 2003, c P-6.5), the Canadian federal Personal Information Protection and Electronic Documents Act (PIPEDA, SC 2000, c 5), and international data protection standards.

Designated Privacy Officer Contact:

- Privacy Inquiries & Access Requests: kindredaicoach@gmail.com
- Customer & Account Support: kindred_support@kindred-asterling-ai-coaching.com
- Mailing Address: 202 - 10249 119 ST NW, Edmonton, AB T5K 2Y6, Canada

2. Personal Information We Collect

We collect and process only the personal information strictly necessary to provide and operate the Service:

1. Account & Authentication Data: Email address, user identification tokens, account verification status, and name provided through our authentication partner, Clerk.
2. Wellness, Reflection & Coaching Data: Self-submitted morning check-ins, evening reflections, mood scores, body scan notes, habit records, medication logs, personal goals, and chat interactions with the coaching AI.
3. Calendar Integration Metadata (Optional): When you choose to connect Google Calendar, we retrieve read-only upcoming schedule data to calculate a non-identifying, title-free schedule-density metric (e.g., light, moderate, heavy schedule load).
4. Subscription & Transaction Data: Payment references, plan tiers (Yearly or Lifetime Access), and transaction IDs processed securely through Helcim. We do not store or process raw credit card numbers.
5. Operational & Security Telemetry: Server access logs, security events, quota tracking, and error diagnostic logs (managed via Sentry with sensitive PII masked).

3. Purposes for Processing Personal Information

We collect and process your personal information strictly for the following purposes:

- Delivering automated coaching dialogue, reflection prompts, and habit summaries.
- Personalizing conversational coaching pacing using interaction-scoped context minimization.
- Processing subscription payments, managing accounts, and preventing abuse or security breaches.
- Complying with Canadian accounting, tax, and statutory requirements.

AI Training Exclusion: We do not sell your personal information. Personal wellness data, reflection logs, and coaching interactions are never used to train public or foundational machine learning models.

4. Third-Party Service Providers & Cross-Border Data Transfers

To deliver our secure cloud platform, personal information may be transferred to and processed by vetted third-party service providers. In accordance with Section 13.1 of Alberta PIPA, please note that personal data transferred across provincial or international borders may be accessible to foreign regulatory or law enforcement authorities under lawful orders in the jurisdictions where those facilities are located:

- AI Inference Engine: Amazon Web Services (AWS) Bedrock (USA / Canada) - zero-retention enterprise inference for model execution.
- Cloud Hosting & Infrastructure: Contabo GmbH (Munich, Germany) - secure VPS infrastructure and database management.
- Authentication & Identity: Clerk (USA / Global) - secure session management.
- Payment Processing: Helcim (Calgary, AB, Canada) - PCI-DSS compliant checkout and subscription billing.
- Error Diagnostics: Sentry (USA) - crash telemetry with automatic PII masking.
- Communications: Resend (transactional email), Twilio (SMS reminders, where enabled), and ElevenLabs (voice synthesis, where enabled).

5. Google API Services User Data Policy & Limited Use

Kindred's use and transfer to any other app of information received from Google APIs adheres strictly to the Google API Services User Data Policy, including the Limited Use requirements:

- Scope Minimization: We request read-only access strictly to upcoming calendar metadata.
- Title-Free Processing: Raw event titles, meeting descriptions, participant emails, and sensitive event details are not injected into the AI context. Only an aggregated schedule-density signal is utilized.
- No Secondary Marketing or AI Training: Google user data is never sold, transferred to data brokers, used for advertising, or used to train general-purpose AI models.
- Revocation: You may disconnect Google Calendar and revoke OAuth permissions at any time within your account settings, triggering immediate token deletion from our databases.

6. Retention Schedules, Access & Deletion Rights

A. Retention Periods

- Active Account & Coaching Records: Retained for the duration of your active account lifecycle.
- Server Backups: Automated encrypted backups are retained on a rolling 35-day cycle.
- Administrative & Security Logs: Retained for up to 12 months for security auditing.
- Billing & Transaction Records: Retained for up to 7 years to satisfy Canada Revenue Agency (CRA) tax obligations.

B. Individual Rights Under Alberta PIPA

Under Alberta PIPA and Canadian privacy legislation, you have the right to:

- Access and inspect the personal information we hold about you.
- Request corrections to inaccurate or incomplete personal records.
- Request account deletion and complete erasure of your coaching history.

- Withdraw consent for optional processing (e.g., calendar integration, marketing emails).

To exercise any of these rights, submit a written request to our Privacy Officer at kindredaicoach@gmail.com. We respond to verified requests within thirty (30) days in compliance with statutory timelines.

7. Security Measures & Breach Notification

We employ industry-standard administrative, physical, and technical safeguards, including TLS 1.3 encryption in transit, AES-256 encryption at rest for OAuth tokens, role-based access restrictions, and automated vulnerability monitoring.

In the event of a security incident involving personal information that poses a real risk of significant harm, we will promptly notify affected individuals and the Office of the Information and Privacy Commissioner of Alberta (OIPC) in compliance with Section 34.1 of Alberta PIPA.
