Date	August 24, 2026
Governing Law	Province of Alberta & Federal Laws of Canada
Sole Proprietor	Landon Syroid d/b/a Kindred Asterling AI Coaching
Status	Subject to Final Legal Counsel Approval

DRAFT - FOR FINAL LEGAL REVIEW & EXECUTION - NOT FOR DISTRIBUTION

1. Scope & Commitment

Kindred Asterling AI Coaching ("Kindred", "we", "us", or "our"), operated by Landon Syroid in Edmonton, Alberta, Canada, is committed to transparent and minimal data collection. This Notice explains the essential browser storage technologies, security cookies, and diagnostic tools used on the Kindred web application.

We do not engage in third-party behavioral advertising, cross-site tracking, or data brokering.

2. Categories of Technologies We Use

A. Strictly Necessary & Authentication Technologies

These technologies are essential for the operation, integrity, and security of the platform. The platform cannot function securely without them.

- Clerk Authentication: Session cookies and local storage tokens utilized to maintain authenticated user sessions, verify identity, and defend against cross-site request forgery (CSRF).
- Hosting & Infrastructure Security: Technical routing, SSL termination, and DDoS protection headers set by our hosting and edge infrastructure (Contabo GmbH / Cloudflare).

B. Functional & Interface Preference Storage

- Browser LocalStorage: Stores client-side visual preferences, such as light/dark interface mode or user-selected view toggles, directly on your local device.

C. Technical Diagnostics & Error Monitoring

- Sentry Error Diagnostics: Used solely to capture anonymous crash reports, stack traces, and software performance anomalies.
- Privacy Protections in Diagnostics: Sentry is configured with strict data-masking rules. Keystrokes, user passwords, payment tokens, and the text content of personal coaching reflections are strictly excluded and masked from error telemetry.

3. Explicit Exclusion of Advertising Trackers

- No Advertising Networks: We do not deploy Google Analytics, Meta (Facebook) Pixels, TikTok pixels, or advertising tracking beacons.

- No Third-Party Social Widgets: Outbound links to external platforms in our site footer are standard hyperlinks and do not execute third-party tracking scripts or tracking beacons.

4. User Controls & Managing Storage

You can adjust your cookie and storage preferences at any time through your web browser settings:

- Disabling Storage: You can configure your browser to reject cookies or purge local storage caches.
- Impact on Core Services: Please note that disabling strictly necessary cookies and local storage will prevent you from signing in or maintaining an active coaching session.

5. Inquiries

For questions regarding our use of cookies and storage technologies, contact our Privacy Officer:

- Email: kindredaicoach@gmail.com
- Support: kindred_support@kindred-asterling-ai-coaching.com
